

# Serge Kostrikin | Front-end developer

---

[s.a.kostrikin@gmail.com](mailto:s.a.kostrikin@gmail.com) | portfolio: <https://sergeweb.com> | GitHub: <https://github.com/SergeiKOS> | Toronto

## Skills

HTML, CSS, JavaScript (ES5, ES6+), TypeScript, React, Redux, Webflow, UI/UX design, Figma.

## Experience

### Digital Notes

[website](#) | [about project](#) | [github](#)

This is a note-storing app. It can be also used for bigger text e.g. a summary from a lecture. Text can be customized as you wish. App has very good accessibility. Digital note is an app that I enjoy building all by myself. Technologies used: React, TypeScript, React-quill, Styled-components, React-router-dom, CRA, CSS grid, and flexbox.

### SuperBrain

[website](#) | [about project](#) | [github](#)

You can play 4 games in this app. The best one is "Memory" and "Trivia". "Trivia" game uses an external API. The interface is easy to use. All games were executed by me.

Technologies used: React, React-router-dom, Styled-components, Framer-motion, CRA, CSS grid, flexbox, Axios, and Prop-types.

### Cat energy

[website](#) | [about project](#) | [github](#)

This project was created by following pixel perfect requirements and was made during obtaining [HTML & CSS certification in the HTML Academy](#). All the code was written by me with a little help from my mentor. Design files were provided.

Technologies used: Gulp, BEM, SCSS, Flexbox, and other development dependencies.

## Education

- Apr 2022 [Udemy. Complete Web Design: from Figma to Webflow to Freelancing](#)
- Sep 2021 [Zero To Mastery Academy. JavaScript: The Advanced Concepts \(2021\)](#)
- Jun 2020 [Scrimba. Advanced React](#)
- May 2019 [HTML Academy. Professional HTML & CSS, level 2](#)
- Oct 2018 [HTML Academy. Professional JavaScript, level 1](#)
